Sewer Charges Select One: 9,100 Gallons Actual Usage

Commercial customers may elect to be billed based on their actual usage or 9,100 gallons usage per month, until a new sewer average is established based on water consumption as shown on January, February and March utility bills. **CAUTION *The summer months are historically high water usage periods. A selection of actual monthly usage during and prior to this time could increase the monthly sewer charges. Many customers increase their water consumption during the summer due to outside activities, swimming pool usage, sprinklers etc. A signed authorization for the actual water usage option must be on file with the City in order to initiate the actual usage option.***
